RE : Information Letter for Project B777

Dear Occupants of the Prévessin Site,

We would like to inform you that the construction of Building 777 is about to begin. The project involves the construction of a three-storey building primarily comprising offices, with a restaurant and laboratories. Construction will continue until the end of 2027.

We are aware of the disturbance that a construction site of this magnitude can generate, and we apologise in advance for any inconvenience caused.

We will ensure that everyone involved in the construction process minimises disturbance to the surrounding neighbourhood. This project is subject to BREEAM certification, which is aimed, among other things, at minimising such disturbance.

For your information, the construction site will be operating from Monday to Friday between 7am and 12:30pm, and between 1pm and 7pm. However, the construction site may also be operating on Saturdays, and these hours may be adjusted as needed.

To keep you informed of progress, we will communicate with you regularly via a notice board, and you can contact us directly with any questions via the site mailbox.

Best regards,

The *Demathieu Bard Bâtiment Sud-Est* team
